

NC-3000 Series

The NC-3000 Series of one-pocket value counters are the most intelligent and functionally-rich in their class.

They employ an advanced multi-detection technology from MA to provide high acceptance rate of genuine notes and high accuracy in the detection of counterfeits.

The full-size numeric keypad gives users easy access to the device's functions as well as flexibility in selecting operational modes such as batch size, currency, speed, sorting method.

The operation and daily maintenance of the NC-3000 Series value counter is facilitated by its unique clamshell bill path technology which, together with the 2.8" graphic LCD display and user-friendly interface, allows for a smooth and easy note processing.

NC-3000 Series Technical Specifications:

Feed System	Roller Friction System
Counterfeit Detection	IR, MG, UV, 3D
Count Mode	Count, Mix, DD
Counting Speed	900 / 1200 / 1500 notes/min.
Max. Currency	5
Hopper Capacity	Max. 500 notes
Stacker Pocket Capacity	Max. 200 notes
Countable Note	60 x 85 x 0.08 mm - 100 x 190 x 0.12 mm
Display	2.8 Inch Graphic LCD
Power Supply	100-240V, 50/60Hz
Power Consumption	Max. 40W
Dimensions (mm)	285 (W) x 270 (D) x 280 (H)
Weight	7.2 kg
Interface	RS-232 PC Connection Interface (USB) SD Card Remote Display
Optional Accessory	Remote Display Thermal Printer
Available Currencies	Please contact us

Intuitive graphical user interface with programmable function keys

Physical numeric keypad for fast selection of common counting functions

Denomination sorting function

Easy-access bill path design for removal of jammed notes and daily maintenance.

Multiple output interfaces for extensive data transfer capability

Unique design allows for secure and effortless hand-carrying
